**Maria Callas. Album "leggendari" - Norma (Italian Edition)** Fabio Caironi

Non si tratta di una biografia canonica della celebre soprano, ma di uno studio su un dettaglio bizzarro della sua vita. Per anni si disse (e lo si fa ancora) che la Callas inghiottì un verme solitario per portare a termine una straordinaria dieta, che la vide perdere 28 chili in un paio d'anni. Una leggenda metropolitana tra le più celebri del panorama musicale.

Il libretto spiega la genesi della leggenda, il contesto sociale e storico nel quale si è sviluppata, e offre al lettore gli strumenti per farsi un'idea della vicenda scevra di pregiudizi.

In coda una panoramica su una delle opere che le interpretazioni della Callas ha riportato in auge: "Norma" di Vincenzo Bellini, con la sua aria "Casta diva" che divenne il marchio di fabbrica della soprano.

Si tratta del primo capitolo di una serie intitolata "Album leggendari" che si svilupperà nel corso dei prossimi anni, e che andrà a illustrare una leggenda metropolitana legata ad un artista o gruppo, e a un disco legato a essa o che è rimasto nella storia della musica.
