Delos Science Fiction 171 (Italian Edition) Carmine Treanni

RIVISTA (62 pagine) - FANTASCIENZA - Avengers Age Of Ultron – Isaac Asimov - Humandroid – Singolarità tecnologica

Se escludiamo "Star Wars: Il risveglio della Forza", "Avengers: Age of Ultron" è il film più atteso dell'anno. Joss Whedon è riuscito a confezionare un secondo capitolo della saga cinematografica de I Vendicatori dove emerge con maggiore forza la "squadra", l'insieme dei supereroi della Marvel. C'è da rallegrarsi, perché il film coniuga lo spettacolo all'ennesima potenza con temi tipicamente fantascientifici, quali, ad esempio, i possibili rischi della nascita di una intelligenza artificiale. Delos Science Fiction 171 dedica al film un approfondimento con un articolo di Ivan Lusetti sul film e sul fumetto e una riflessione di Valerio Pellegrini sulla figura del supereroe, tra realtà e finzione. Arturo Fabra invece racconta, attraverso la voce dei protagonisti, il nuovo film di Neill Bloomkamp dal titolo "Humandroid". Anche in questo caso, siamo davanti ad un film che sta riscuotendo l'attenzione degli appassionati. E non poteva che essere così visto che alla regia c'è un regista che ha realizzato tre film e tutti di fantascienza. Roberto Paura traccia la storia dell'evoluzione dell'intelligenza artificiale nella realtà scientifica di questi anni. Nell'editoriale, il curatore Carmine Treanni invece, lancia una piccola provocazione nei confronti degli appassionati del fantasy, ricordando che uno degli scrittori più amati del momento, grazie anche alla trasposizione televisiva di una sua saga letteraria, sia stato in realtà prima di tutto uno scrittore di science fiction. Andate a vedere chi è anche se non è difficile indovinare di chi stiamo parlando. Il racconto è di Marco Migliori.
