The Gardener's Calendar for South-Carolina, Georgia, and North-Carolina (Brown Thrasher Books)

Robert Squibb

Robert Squibb first published his *Gardener's Calendar* in Charleston, South Carolina, in 1787—a time when what came to the table had come from the backyard, and households that wished to eat well (or perhaps to eat at all) had to cultivate "garlick," shallots, coriander, and "small sallading," as well as "spinage," "cellery," "plumbs," and "pease" in their kitchen gardens. Squibb's planting guide was welcomed by eighteenth-century gardeners; for the first time they had professional counsel about specific plants that would thrive in the region and a month-by-month guide to the nurturing of their fruits and vegetables. No longer need they guess at the effects of the climate lag between England and Georgia or Carolina as they had done while using British calendars.

This edition follows closely the format of the 1787 volume, retaining eighteenth-century spelling, punctuation, and ornament. Though nearly two centuries have passed, this classic of southern gardening remains a delightfully instructive planting guide.
