**Macroscopic Electrodynamics Instructor's Solutions Guide** Walter Wilcox, Chris Thron

This instructor's solutions guide accompanies our introductory graduate electrodynamics textbook, "Macroscopic Electrodynamics". We emphasize that this is a guide and not a step-by-step exposition for the 391 problems furnished in the text. Helpful indications of starting points and methods are given, as well as enough intermediate steps (and occasional final results) that a knowledgeable instructor can readily fill in the gaps. This approach is designed to provide the instructor with a powerful and time-saving teaching aid for introducing students to this beautiful and wide-ranging subject.
