Welcome To The Madhouse S.E. Sasaki

Doctor Grace Lord, a lieutenant in the Conglomerate Medical Corps, has come to the medical space station, the Nelson Mandela, as the new surgical fellow under the renowned Doctor Hiro Al-Fadi. Though she earned her commission as a combat surgeon in the field, she is unprepared for the scope and pace of what awaits her in the Conglomerate's Premier Medical Space Station. The countless cryopods that come into the Nelson Mandela are filled with the casualties of the Conglomerate's animal-adapted military forces. Traumatically injured and disfigured in campaigns spread across the galaxy, it is up to the staff of the Nelson Mandela to patch up the wounded combat soldiers for redeployment. For Grace, it is a trial by fire, as she familiarizes herself not only with the routines and protocols of life on the Nelson Mandela, but also with the eclectic community of professionals with whom she works - not the least of which is an android that has taken an almost human interest in her. When disaster strikes the space station, the Nelson Mandela must race against time to stave off annihilation, and it becomes clear that, regardless of the outcome, nothing will never be the same again.
