Sonny and MJ are back, with all of the fast action and steamy heat of their first book, *Racing the Moon!* MJ gets an offer he can't refuse, one that leads the eco-friendly explosives man to California, with his ridge-runner, Sonny, at his side. They come out of semi-retirement to take out a man they think is an expert in creating weapons for the government. What they find is Paddy, a pawn in a very dangerous game of cat and mouse, a physicist who thinks his cooked-up experiments have no practical application. Paddy's new friend and bodyguard, Neil, knows better. In fact, Neil knows enough to be very dangerous to MJ and Sonny, which sets off a romp that careens across country and spills into the ocean as Sonny and MJ turn to what they know. Running as fast as they can. Paddy and Neil find themselves carried right along, clinging to each other in a world that has suddenly gone crazy. An uneasy partnership springs up between the four men when they realize they just might have a common enemy, and they work together to find out who wants them all dead. *Steam and Sunshine* is a headlong adventure, with all of the action readers have come to expect from Sonny and MJ, and all of the need and heat these two sets of lovers can provide!
