Can a bump on the head cause someone to speak with a different accent? Can animals, aliens, and objects talk? Can we communicate with gods, demons, and the dead? From ancient curses carved on tablets to modern-day affirmations, supernatural language is used in an attempt to predict the future, diagnose and cure disease, attract good luck, repel bad luck, and to charm and curse. *Language Myths, Mysteries and Magic* explores a wide range of weird language-related phenomena, including blasphemy, Bigfoot language, hypnosis, handwriting analysis, chain letters, spells, spirit writing, and hidden satanic messages.

We take a look at some bizarre real-life cases, including the story of a modern English woman who suddenly began speaking in an ancient Egyptian dialect. We hear about a song that is so depressing it is said to drive people to commit suicide, and the belief that if you fall asleep on a book you can absorb its contents without having to read it. This book is a curio shop full of colourful superstitions, folklore, and legends about language.
