Ben was a bright, happy little boy. Yet he was easily distracted, he wouldn't make eye contact, and he couldn't comprehend the simplest things said to him. At age three he still hadn't started talking. Finally, Karen Foli knew she had to act, and she took her son to a speech and hearing clinic.

What the clinicians reported chilled her: Ben's speech and language were delayed by one to two years. Testing results and speech therapists suggested problems that included the words "probably retarded and perhaps autistic." But Karen, trusting her mother's intuition, knew that Ben was intelligent and that he was frustrated by his inability to communicate, so she continued to try to help her son. She discovered that he possessed the hallmarks of auditory processing disorder, the aural equivalent of dyslexia.

*Like Sound Through Water* is the story of Karen's struggle to get Ben the help he needed to learn the most basic skill of all: to communicate with the world. She ran the gauntlet of medical disbelievers and pediatric therapists who refused to understand the very new findings of auditory processing disorder. Even her husband, a psychiatrist specializing in children's afflictions, had never heard of APD. Despite this, he kept a steadfast faith in his son.

Now, after years of intensive treatment for APD, Ben is an academically successful, hardworking little boy with a bright future to look forward to. *Like Sound Through Water* is a testament to a mother's love and her devotion to her son's care; it is also an instructive journey for those who are discovering the world of APD and a guidebook to negotiating the land mines of its treatment. Above all, it is a beautifully written tale of hope and optimism.
