Property and Sovereignty: Legal and Cultural Perspectives (Law, Property and Society)

Property and Sovereignty: Legal and Cultural Perspectives (Law, Property and Society)

This book explores the relationships between property and the concept of sovereignty from a number of different perspectives. It distinguishes between the dual meaning of 'sovereignty' in property discourse - political sovereignty and owner sovereignty. The contributors discuss the nature of sovereignty in both senses, applying it to a wide range of topics such as the evolution of property rights in fragile and conflict-affected nation states, and notions of sovereign property in new worlds. A section on the Arts illuminates the relationships between property, sovereignty, and culture, and a further section investigates regulatory property and governmental control over resources. The book concludes with an exploration of sovereign shaping of private property entitlements to achieve instrumental ends. This interesting collection will be valuable to those in the fields of legal philosophy, property theory, international and comparative law, and political sociology. This book explores the relationships between property and the concept of sovereignty from a number of different perspectives.
