Installing and Administering Linux (Gearhead Press) Linda McKinnon, Al McKinnon

An indispensable working resource for IT professionals moving to Linux-based network systems

This new edition of Linda and Al McKinnon's book satisfies a long-standing need among IT professionals for a comprehensive guide to installing and administering Linux-topics usually covered in a more superficial manner as parts of larger Linux references. In addition to providing complete step-by-step installation instructions, this fast-paced guide shows readers how to perform all essential administrative tasks, including creating users and passwords, managing files and directories, and customizing the environment. Readers also learn how to make the most of Linux Shells and utilities, use the vi editor, and much more.

Responding to the ongoing needs of IT professionals for current and reliable information on the latest technologies, Wiley Computer Publishing introduces the Gearhead Press titles. These books, written by accomplished trainers in their respective fields, focus on real-world examples and case studies to give readers the best information on leading topics.

The Gearhead Press titles are characterized by two imprints: In the Trenches and Point to Point-both series include fast-paced books written by fellow IT professionals who have been there and done that.

In the Trenches books introduce technologies, guide readers to proficiency, and serve as practical, hands-on references after the initial tasks are accomplished. The Point to Point titles invite readers to join an IT team at a model company and implement technologies in real-world environments-demonstrating actual problems and solutions.

Rebecca Stark:

Are you kind of busy person, only have 10 or even 15 minute in your day to upgrading your mind expertise or thinking skill actually analytical thinking? Then you are experiencing problem with the book when compared with can satisfy your short space of time to read it because pretty much everything time you only find book that need more time to be examine. Installing and Administering Linux (Gearhead Press) can be your answer as it can be read by you actually who have those short time problems.

Marian Carson:

As a university student exactly feel bored to be able to reading. If their teacher requested them to go to the library or to make summary for some publication, they are complained. Just tiny students that has reading's heart and soul or real their pastime. They just do what the professor want, like asked to the library. They go to at this time there but nothing reading critically. Any students feel that reading is not important, boring as well as can't see colorful pictures on there. Yeah, it is for being complicated. Book is very important to suit your needs. As we know that on this period, many ways to get whatever we would like. Likewise word says, ways to reach Chinese's country. Therefore , this Installing and Administering Linux (Gearhead Press) can make you really feel more interested to read.
