**Architecture industrielle: les usines (French Edition)** Victoria Charles

Issue de la révolution industrielle, l'usine a longtemps été considérée comme un « monstre » de fer, soumettant l'être humain au collectif dans un acte de déshumanisation à la chaîne au profit de l'objet. Détournée aujourd'hui de son côté purement fonctionnel, pour lequel elle avait été construite, au profit de son esthétisme, l'usine est parfois revisitée en loft moderne ou en musée d'art contemporain. Les photographies inédites et surprenantes de cet ouvrage nous font redécouvrir les volumes, la pureté des lignes, la beauté et l'architecture, étonnamment moderne, de ces monuments aux clavicles d'acier.
