Conduct Disorders in Youth Lourens Schlebusch

Conduct Disorders in Youth deals with the maladaptive behavior, delinquency and other forms of waywardness in youth. It features significant contributions from the research literature relating to the subject in general and to the South African situation in particular.

This book is organized into three main parts. The chapters evaluate the usefulness of some psychological tests such as the I PAT Anxiety Scale Questionnaire, the Children's Personality Questionnaire (CPQ) and the High School Personality Questionnaire (HSPQ) as diagnostic instruments. They also provide an inventory of behavioral characteristics that can help in identifying symptoms of conduct disorders. This book also features a detailed discussion of two clinical case histories to exemplify the main points formulated in the text.

This book will be of interest to students reading for degrees and diplomas in psychology, education, psychiatry, social work, psychiatric nursing, sociology and criminology.
