Clearly focused on the future of radiographic positioning, this slide set provides a detailed and interactive approach to learning. Radiographs and illustrations from the main text, "Encyclopaedia of Radiographic Positioning", have been reproduced to facilitate recognition and encourage classroom discussion. 1,216 slides bring to life the full spectrum of positioning possibilities and help students visualize the concepts of radiographic positioning. Complete cross-referencing to the appropriate chapters in the main book coordinates the slides with the written material.
