Methods of Text and Discourse Analysis: In Search of Meaning Stefan Titscher, Michael Meyer, Ruth Wodak, Eva Vetter

'This volume is the most comprehensive overview to date of sociologically orientated approaches to text and discourse analysis and is worth reading even for those who are interested only in purely linguistic approaches to text and discourse. Its main merit, I think, is that it introduces approaches which up to now have hardly been admitted into the universe of scientific discourse' - **Discourse Studies**

Methods of Text and Discourse Analysis provides the most comprehensive overview currently available of linguistic and sociological approaches to text and discourse analysis.

Among the 10 linguistic and sociological models surveyed in this book some of the more important are Grounded Theory, Content Analysis, Conversation Analysis and Critical Discourse Analysis. The book presents each approach according to a standardised format, which allows for direct systematic comparisons. The fully annotated lists of sources provide readers with an additional means of evaluation of the competing analytical methods. Interdisciplinary and international in its aims, **Methods of Text and Discourse Analysis** suggests the benefits both linguists and sociologists will derive from a more intimate knowledge of each others' methods and procedures.
