**After the Cosmopolitan?: Multicultural Cities and the Future of Racism** Michael Keith

*After the Cosmopolitan?* argues that both racial divisions and intercultural dialogue can only be understood in the context of the urbanism through which they are realized.

All the key debates in cultural theory and urban studies are covered in detail:

- the growth of cultural industries and the marketing of cities
- social exclusion and violence
- the nature of the ghetto
- the cross-disciplinary conceptualization of cultural hybridity
- the politics of third-way social policy.

In considering the ways in which race is played out in the world's most eminent cities, Michael Keith shows that neither the utopian naïveté of some invocations of cosmopolitan democracy, nor the pessimism of multicultural hell can adequately make sense of the changing nature of contemporary metropolitan life.

Authoritative and informative, this book will be of interest to advanced undergraduates, postgraduates and researchers of anthropology, cultural studies, geography, politics and sociology.
