Almost everyone has had a moment when they've felt a connection to an animal. Animal communicator Marta Williams says this is the basis of animal communication and it's a skill anyone can develop. Williams's background as a scientist informs her logical step-by-step approach to learning the "language" of animals — a process combining mental imagery, visualization, deep listening, and tuning in to one's intuition. Practical advice and proven techniques are interwoven with inspiring real-life accounts. Williams also discusses ways to use these skills to find lost animals, help animals heal from injury or illness, and explore similar deep connections with nature and the earth.
