Missile Design and System Engineering (AIAA Education)

Eugene L. Fleeman

Missile Design and System Engineering (AIAA Education) Eugene L. Fleeman

In his latest book, "Missile Design and System Engineering", Eugene Fleeman presents a comprehensive review of the missile design and system engineering process pulling from his decades of experience in the development of missiles and their technologies. Aimed toward the needs of aerospace engineering students and professors, systems analysts and engineers, program managers, and others working in the areas of missile systems and missile technology development, the book provides readers with an understanding of missile design, missile technologies, launch platform integration, missile system measures of merit and the missile system development process. This book has been adapted from Fleeman's earlier title, "Tactical Missile Design, Second Edition" to include a greater emphasis on systems engineering. Topics discussed include: top components in the missile design and system engineering process; critical tradeoffs, methods and technologies in aerodynamic, propulsion, structure, seeker, warhead, fuzing, and subsystems sizing to meet flight performance and other requirements; launch platform - missile integration; robustness, lethality, guidance, navigation & control, accuracy, observables, survivability, reliability, and cost considerations; missile sizing examples for missile systems and missile technologies; and, missile system and missile technology development process.

From reader reviews:

Patricia Coburn:

The knowledge that you get from Missile Design and System Engineering (AIAA Education) may be the more deep you rooting the information that hide inside the words the more you get enthusiastic about reading it. It does not mean that this book is hard to know but Missile Design and System Engineering (AIAA Education) giving you excitement feeling of reading. The article writer conveys their point in specific way that can be understood through anyone who read the idea because the author of this publication is well-known enough. This book also makes your own vocabulary increase well. Making it easy to understand then can go along, both in printed or e-book style are available. We advise you for having that Missile Design and System Engineering (AIAA Education) instantly.

Phyllis Thompson:

The e-book untitled Missile Design and System Engineering (AIAA Education) is the reserve that recommended to you to read. You can see the quality of the publication content that will be shown to you actually. The language that author use to explained their way of doing something is easily to understand. The copy writer was did a lot of study when write the book, to ensure the information that they share for your requirements is absolutely accurate. You also can get the e-book of Missile Design and System Engineering (AIAA Education) from the publisher to make you much more enjoy free time.

Antonio Mock:

You can spend your free time you just read this book this guide. This Missile Design and System Engineering (AIAA Education) is simple to develop you can read it in the recreation area, in the beach, train as well as soon. If you did not get much space to bring the actual printed book, you can buy typically the e-book. It is make you much easier to read it. You can save the particular book in your smart phone. So there are a lot of benefits that you will get when one buys this book.

Roger Richmond:

Do you like reading a publication? Confuse to looking for your best book? Or your book seemed to be rare? Why so many problem for the book? But just about any people feel that they enjoy intended for reading. Some people likes reading through, not only science book but in addition novel and Missile Design and System Engineering (AIAA Education) or maybe others sources were given knowledge for you. After you know how the truly great a book, you feel would like to read more and more. Science guide was created for teacher or even students especially. Those publications are helping them to include their knowledge. In various other case, beside science guide, any other book likes Missile Design and System Engineering (AIAA Education) to make your spare time more colorful. Many types of book like this.
